

## **Downtown Construction Activities**

### ***Proposed work activities for the week of May 31<sup>st</sup>, 2021***

- The contractor at the Generals Bridge project will continue installing new rebar cages along the existing concrete wall at the MBTA tracks along Thomas Burgin Parkway.
- At the McConville Way project the contractor will continue construction of the north and south streetscape aside the new roadway. The streetscape work includes the continued installation of granite planting curb, irrigation, trash receptacles, bike racks, concrete sidewalks, brick pavers, and roadway signage. At the future pocket parks, the contractor will continue installing park granite pavers, park shrubs, finish electrical within the fountain vault, and begin testing of the new fountain. In addition, the contractor will be paving Granite St, Cliveden St, McConville Way, and a portion of Walter Hannon Parkway at the beginning of the week. There will be temporary traffic detours during the time of these paving operations.
- At the old 100 Parking Way site the contractor will finish backfilling this area and begin grading this area for future development. The temporary fencing remains in place around the old building area during construction. There remains no parking along McConville Way and Parkingway.

(The photo on the above left shows the install of the new flag poles at the new pocket park along 1515 Hancock St building and the above right photo shows contractors installing new park wooden benches at the pocket park adjacent to the Cliveden Place building.)
